Amsterdam, Netherlands

## ABOUT ME

I'm a junior software engineer with background in Project management, curious to learn how things work under the hood and focused on creating efficient, scalable solutions to drive business objectives. I bring a blend of strong communication skills, team-player mindset, and experience in cross-functional collaboration.

## GITHUB

 [sozhran](#)

## SKILLS

- Django
- PostgreSQL
- Docker
- JavaScript/TypeScript
- React
- Next.js
- Svelte
- Agile

## LANGUAGE

- English (professional)
- Russian (native)
- Dutch (studying)

## EDUCATION

### Full-Stack Developer

Mind Mingle  
Utrecht, Netherlands  
(2023-2024)

### Educational Psychologist

Moscow City University (MGPU)  
Moscow, Russia  
(1999-2004)

## WORK EXPERIENCE

### Backend Developer Intern

Agriplace - Amsterdam, Netherlands

**May - Nov 2024**

- Built two new API connections to retrieve, process, and store EU certification data, supporting dynamic PDF extract generation via ReportLab;
- Introduced document versioning in an existing API to maintain complete data history;
- These improvements led to a €110K boost in annual recurring revenue (ARR).

### Project Manager

Yandex - Moscow, Russia

**Aug 2013 - May 2018**

Led development and promoted Yandex' in-house antiviral technology and Safe Browsing API. Managed a distributed team of developers and analysts, responsible for joint projects with Design, Frontend, and SRE. Highlights include:

- Implemented Safe Browsing API across major Yandex products and services (Browser, Image Search, Video Search, etc.);
- Launched a warning system that identified ad-replacement (man-in-the-browser) infections in real time to reduce ad revenue losses;
- Launched and managed Yandex.DNS (10M+ active users), negotiated distribution with leading router manufacturers (Asus, D-Link, ZyXel, Netis, Upvel), expanding the product to 80%+ of the consumer router market in Russia.
- Set up on call duty within Yandex Search Business Unit from scratch in 1 month.

### Customer Support Analyst

Yandex - Moscow, Russia

**Jun 2011 - Aug 2013**

- Collaborated with the Antispam team to enhance detection precision;
- Gathered customer support statistics and generated reports for departmental leadership;
- Streamlined and standardized team processes to improve their efficiency.

### Customer Support Specialist

Yandex - Moscow, Russia

**Feb 2010 - Jun 2011**

- Provided assistance to Yandex users and site owners facing malware issues, utilizing TeamViewer to research complex cases and take samples;
- Created instructions for malware removal from personal computers;
- Conducted analysis of infected domains to identify and address security vulnerabilities.
